### Why attend a Bassets Webinar?

A webinar is a really cool, high tech way to learn online from the comfort of your office. You simply login to a special website where you can view our presentation while listening to an expert discuss fixed assets, depreciation and how Bassets can save you hours every month.

**You should attend this Webinar to:**

#### **1 SAVE TIME IN YOUR EVALUATION**

If you are reading this document, then you are considering the purchase of a new fixed asset system. Researching, downloading and testing software is a very time consuming process. If you plan on doing a full system evaluation of several software packages, you may find the following white paper helpful:

[4 Steps to Selecting a Fixed Asset Management & Depreciation Solution](#)

On the other hand, if you are in the early stages of your evaluation and just want to take a look, a no obligation informative webinar is a great solution. All you need is a phone, a web browser and 15 minutes. You watch and listen while one of our highly trained software experts demonstrates the features, advantages and benefits of The Bassets Fixed Asset System. It really couldn't be any easier.

## 2 DISCOVER THE BENEFITS OF A NEW FIXED ASSET SYSTEM

Most people are resistant to change, it is just our nature. We will tolerate a certain amount of pain when dealing with a problem because of the uncertainty of change. There is sometimes a fear that it could get worse.

Many of our satisfied clients had similar hesitation when beginning a search, but are now very happy with the results. Click on the link below to see some of their success stories:

[Customize Bassets to suit the specific needs of your industry and company](#)

Are you currently?

- Disappointed with features or support
- Managing fixed assets with a spreadsheet
- Stuck with a legacy system

If one of the above matches your current situation, then invest a small amount of time to see how Bassets can improve your asset management function. The webinar will demonstrate the software's ease of use and many of the features you need. You may also discover a few features that you have not thought of.

### **What about Data Conversion?**

Probably the biggest fear of switching to a new software package is a difficult data conversion. During the webinar, we show how easy it is to convert your existing data to Bassets. We reconcile with your existing calculations and typically have new clients up and running in 7-10 business days. Best of all, data conversion is included with your annual software maintenance.

### 3 ASK QUESTIONS - FREE CONSULTING

At the end of the webinar, you will have the opportunity to ask our depreciation experts your toughest questions. Yes, by attending this no cost event you can draw on our experience for answers to any fixed asset problems.

Bassets is continually seeking client ideas and suggestions to enhance our software. In the past, we have met client challenges like:

- Non standard calendar (4-4-5 week accounting periods)
- Unique depreciation calculations (Units of Production)
- Foreign currency conversion
- Custom data interface requirement with other systems
- Track supporting invoice detail (Construction in Progress)

How much is your current system really costing you? Clients that have switched to Bassets have found missing assets, under depreciation, lost deductions and lost productivity in their old system.

We know you are extremely busy and that is why we are only asking for 15 minutes. In this short period of time, you could save yourself hours of wasted research. We have already compiled the information you need and can present it to you now in a convenient format.

#### **Still not convinced?**

Here is a summary agenda of what will be covered during the Bassets webinar:

- Generate Standard Reports
- Setup & Data Conversion
- Adding Asset Records
- Manage the Asset Life Cycle
- Data Query & Drill Down
